OUR SERVICES

Training & Facilitation

Certified in Results Based Facilitation and trained in Equity Centered Facilitation, we focus on building and/or facilitating learning experiences with strong containers for groups to do generative, meaningful work together.

Experience & Event Planning

We have over 10 years experience planning hundreds of national in-person, hybrid, and virtual meetings and events. Gatherings are essential for organizations to build community, connection, and accelerate impact. We help breakdown events to make planning accessible and replicable.

Organization & Program Development

We have over 12 years experience guiding and setting strategy for established organizations and startups. Organizational and program level strategy starts with a vision and walks backwards from there. Moving from idea to action is our speciality.
